TECHNICAL SKILLS

Programming Languages: C, Python, JavaScript

Frontend: HTML5, CSS3, React.js

Backend: Node.js, Express.js, RESTful APIs

Databases: MongoDB

Tools & Technologies: Git, GitHub, Visual Studio Code

SUMMARY

Motivated third-year Electronics and Telecommunication Engineering student with strong knowledge of Data Structures and Algorithms, Core Java, and Full-Stack Web Development. Proficient in building web applications using the MERN stack and Spring Boot, with hands-on experience in developing real-world projects. Passionate about software development, problem-solving, and continuously learning modern technologies to build scalable and efficient applications.

PROJECTS

FixMySpot | *Python, React.js, JavaScript, Tailwind CSS, MongoDB*

- Developed a full-stack civic issue reporting platform that enables citizens to report, track, and monitor municipal issues.
- Implemented role-based access for Citizens, Municipal Workers, and Administrators, including administrator authorization for creating municipal worker accounts.
- Built an issue resolution workflow with status tracking, before-and-after updates, notifications, user profiles, and an interactive satellite map interface.

Deadlock Detector and Recovery Simulator | *HTML, CSS, JavaScript, Node.js, Express.js, SVG*

- Developed an interactive simulator for detecting deadlocks and demonstrating recovery techniques in operating-system resource allocation.
- Implemented Banker's Algorithm for safety checking, dynamic resource requests, and DFS-based cycle detection using Resource Allocation Graphs.
- Visualized resource allocation states and deadlock cycles through an interactive Resource Allocation Graph with process termination and resource preemption for recovery.

Developer Portfolio Website | *HTML, CSS, JavaScript*

- Designed and developed a personal portfolio website using HTML and CSS to showcase technical skills, projects, and academic profile.
- Implemented responsive layouts, modern UI styling, animations, transitions, and interactive sections using CSS.
- Added a dark mode toggle using JavaScript and published the project on GitHub.

EDUCATION

Bachelor of Engineering in Electronics and Telecommunication Engineering (B.E.)

2024 – Present

Don Bosco Institute of Technology, Kurla

8/10 CGPA

- Currently in 5th Semester; CGPA of 8/10 through the first four semesters.

Higher Secondary Certificate (HSC) – 12th

2022 – 2024

Swami Vivekananda Junior College of Commerce and Science

76.33%

Secondary School Certificate (SSC) – 10th

2022

St. Mary's Multipurpose High School and Junior College, Vashi

94.40%

CERTIFICATIONS & ACHIEVEMENTS

Udemy Certification: Completed a comprehensive course covering **HTML, CSS, JavaScript, Git, and MERN Stack**.

Achieved **96.10 percentile** in MHT-CET PCM 2024.

Secured **3rd place** in the Drama Competition at **Euphoria**, Don Bosco Institute of Technology, during the 4th Semester.

“`latex`”

CO-CURRICULAR ACTIVITIES

- Performed as **Hiranyakashyap**, the main antagonist, in a Marathi Club drama based on the **Narasimha Avatar** segment of Lord Vishnu's Dashavatara.
- Participated in the **Drama Competition** at **Euphoria**, Don Bosco Institute of Technology, portraying an **old man** in a story depicting the clash of different generations and social classes at a bus stop; the team secured **3rd place**.
